

LED lighting for DC 24V.
Designed to illuminate the interiors of vehicles, as well as emergency lighting.
Lightings in the housing of aluminum, polycarbonate matt diffuser.

Technical data fixtures:

- Input DC voltage: 24V;
- Input DC voltage range – 20 B – 30 V
- Protection against electric shock -0;
- Protection classification penetration of foreign bodies and water IP20;
- Ambient temperature - 25 ° C-+45 °C;
- Service life - 10 years;
- Dimensions: picture 1.
